Who we are & What we do

Educator-Agents

We're educator-agents, who understand the curriculum you teach, and know how you can help your students gain the most out of their travelling experience.

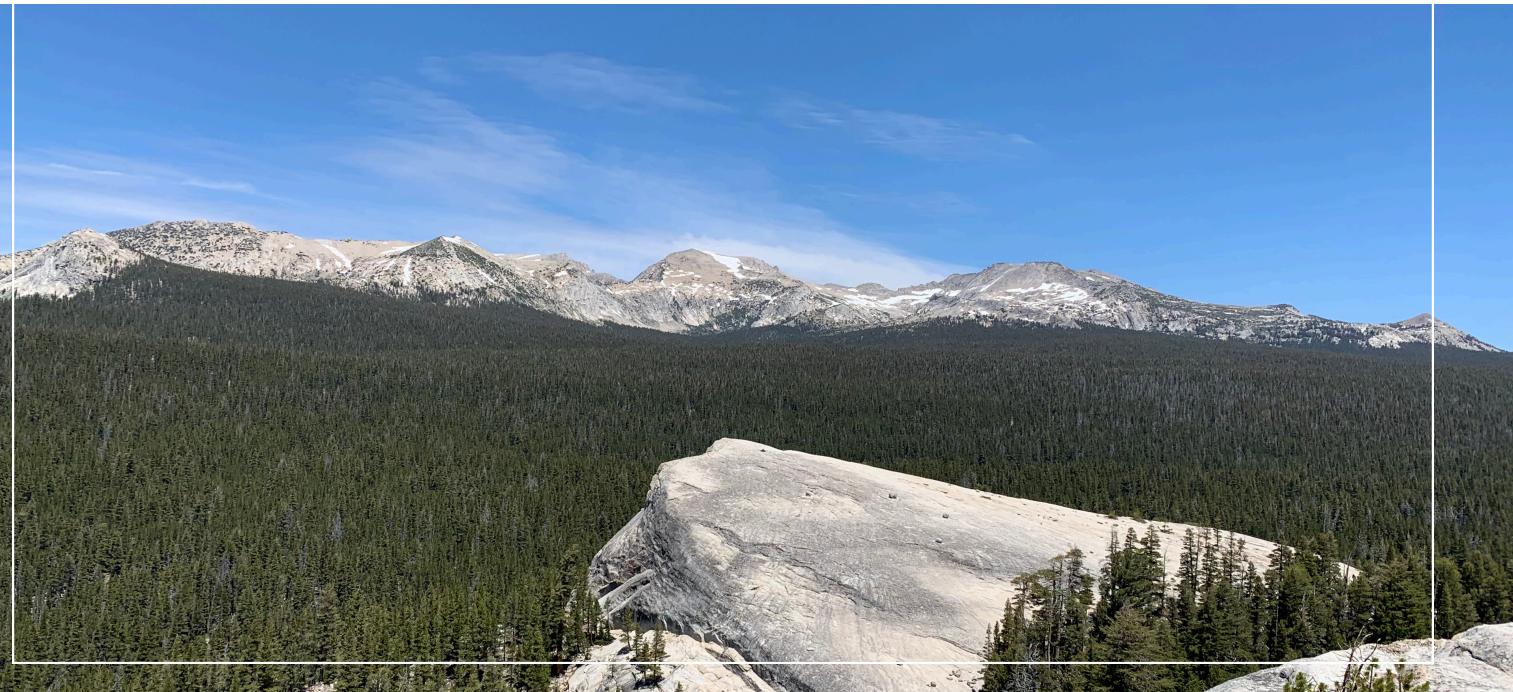

With SACE Knowledge

Our trips have embedded SACE courses. Allowing students to gain credits and life experience at the same time. This is SACE beyond the classroom.

Tailoring Tours

We help you design the learning experience for your students outside of the classroom. We discuss the learning objectives you envisage for your students and help you to make them a reality along with the field trip of a lifetime.

Why choose WeExplored

We package study tours with SACE curriculum to help your students gain additional credits that can positively impact their SACE, and in some cases, their ATAR.

Our Educator-Agents can work with you, to tailor a 10-credit SACE stage 1 or a 10-credit SACE stage 2 subjects that align with your trip and intended outcomes.

Whether you would like your trip to include the following: Integrated Learning, Languages, History, Geography, Scientific Studies, Society and Culture, People, Power and Politics, modified subjects and others. We understand SACE curriculum and can help you create a contextualised SACE subject, that will be the epitome of life-long learning.

Learning Programs

Each Program Includes

- Ready to adapt or co-designed Learning & Assessment Plans (LAPs)
- Linked task sheets for travel and classroom use
- Support before, during, and after the journey

Firsthand Experience

Our tours have been developed by Educator-Agents who have toured with their own students. We understand what you're planning and the extra potential that travel offers students.

We've designed curriculum to suit our tours and our students, and we'd love to help you do the same.

Learning With Purpose

- Keep reflective travel journals
- Complete photo & video documentation
- Engage with locals and experts
- Investigate sites through field-based tasks
- Produce creative & research-based outputs
- Submit SACE-assessable work aligned to curriculum outcomes

Beneficial Outcomes

Student reflection

'Linguistically and culturally I learnt so much. I learnt countless times the correct pronunciation of various words, and from that learnt how to correct my accent. I think this really has had a positive effect on my speaking ability and will help throughout the next year continuing to learn Italian. I also picked up different phrases that I won't ever forget.'

Student application

'When I return to school, I will help promote languages in a number of ways. I will encourage, motivate and inspire other students to continue with their language learning. I will do this by showing them photos and videos of my trip, and telling them about the benefits of my experiences.'

Student journal entry

Orvieto, La Cacciata, the cooking experience

'The farm stay in Orvieto is beautiful and much like you would imagine a farmhouse to be like from the way they are portrayed in films. What is really challenging my learning here is the fact that the owners don't speak in English, meaning I really have to listen carefully to what they are saying and I need to practise my Italian. The cooks are lovely ladies and are really enthusiastic about food. The owner is also very proud of everything that they do at the farm stay 'agriturismo' she even gave us a tour of them producing their own olive oil 'olio di oliva.'

Travel Agent Contacts

Whether you're planning an interstate excursion or an international study tour, We Explored helps you turn your trip, into meaningful, accessible and assessable learning.
